## TERMS OF THE EXTENDED WARRANTY

A. This document describes the terms and conditions of the Ferrari "extended warranty" hereinafter referred to as "the Warranty". Since the warranty described herein is valid after expiry of the manufacturer's warranty, which is provided free of charge, this Warranty is also known as the "extended warranty".

B. Since the authorised Ferrari centre that provides repairs covered by the warranty may be different from the one that provided the Warranty, this document should always travel with the vehicle; failure to present said document, which demonstrates that the warranty period for the vehicle has not expired, may lead to the Authorised Centre charging for the repairs. In the event of loss of the document, contact the service network to request a duplicate.

C. Ferrari reserves the right, at its own discretion, to admit the vehicle to the Warranty programme once it has established: (i) compliance with correct administrative procedures; (ii) that the vehicle does not show signs of serious defects, malfunctioning, premature wear and tear, broken mechanical parts, etc.

### 1. GENERAL CLAUSES

1.1 This is a manufacturer's warranty issued by the manufacturer and purchased by the client; it covers specifically listed functional defects of the used vehicle.

The warranty is available in the following two different formulas: Extended Warranty and New Power; the FORMULAS section, provided below, lists the specific functional defects covered by the Warranty.

In addition to other information, the periods of applicability for each formula are specified in the respective informative brochures, which are available from the Dealerships of the Official Network or downloadable from the Ferrari website.

1.2 The two Warranty formulas may only be purchased for a single used FERRARI vehicle (the term 'used' indicates a vehicle that has been previously registered, or a vehicle that has not been previously registered but has been used by the Manufacturer or by the Selling Dealership). If the vehicle is new, only the Extended Warranty formula may be activated.

1.3 The Warranty is effective from the start date indicated on the first page of this document.

1.4 The Warranty entitles the Client to have the vehicle duly repaired in the event of a functional defect falling within the specific types described for the extended warranty.

1.5 Ferrari reserves the right to refuse Warranty coverage for the vehicle if any repair work or other unauthorised work (including work on the chassis) has been conducted on the vehicle by a centre that does not belong to the authorised service network or if any non-original spare parts that are not of the same quality as the original parts have been used to repair the vehicle.

1.6 The Warranty is not applicable for vehicles with a mileage exceeding 90,000 Km.

1.7 The Warranty may be used, in lieu of the owner, by the legitimate user of the vehicle for the duration of the period of validity. This excludes all operators using the vehicle for commercial purposes (e.g. rental companies, taxis).

1.8 This Warranty does not affect the purchaser's statutory consumer rights with respect to the Selling Dealer as specified by local legislation in the relative Country or by EU directives.

1.9 Any defects noted must be reported by the Client promptly, within 30 days of discovering the defect itself, to a Service Centre of the Authorised Ferrari Network.

The Client must not use the vehicle if the defect noted may cause damage or further defects to the vehicle itself.

Any further damage or defects will be the sole responsibility of the owner of the vehicle.

1.10 In the event of the purchases of an extended warranty with a duration of 12+12 months for a used vehicle, the date at the end of the first 12 months must be the same as the start date of the second 12 months of coverage, with no interval between the consecutive periods of validity. The second 12 month period of coverage will only be valid provided that at the end of the first 12 month period, the vehicle is duly inspected by a Service Centre in the Ferrari Aftersales Network as described in the Owner's Manual and written proof of this is provided.

### 2. EXCLUSIONS

2.1 The Warranty does not cover defects resulting from normal wear and tear of the vehicle, and specifically:

ver. 03.2018  
Extended Warranty

06-05-2021

- a. maintenance work and costs for materials subject to normal wear and tear; these include: brake discs, brake pads, battery, spark plugs, oil filter, air and fuel, all clutch components (disc and pressure plate), tyres, engine belts, wiper blades, activated carbon filter, air conditioning filter, HI-FI system, AC coolant;
- b. changes or deterioration of the paintwork, chromework or upholstery due to normal wear or inappropriate use;
- c. faults not due to material or manufacturing defects and attributable to inappropriate use, negligence, accidents, incorrect or inadequate maintenance, use in motor sports or usage not in compliance with the indications given by Ferrari.

### 3. VOIDING

The Warranty is rendered null and void in the following cases:

- a. the vehicle is not serviced in accordance with the maintenance schedule specified by Ferrari at the intervals listed in the Manufacturer's Warranty Booklet (see Clause 5 below). Any repair work performed at an unauthorised network must be documented with a copy of the invoice and a list of the spare parts used and operations performed.
- b. the vehicle is inappropriately repaired or serviced by a centre that is not part of the Authorised Network;
- c. in the event of modifications made to the (i) mechanical and/or (ii) electronic (including the installation/use of software devices that are incompatible with the technology used in the vehicle and not approved by Ferrari) and/or (iii) bodywork components of the vehicle, or to any other part or system of the vehicle, without authorisation from Ferrari;
- d. the vehicle has been inappropriately used, misused or tampered with (e.g. tampering with odometer);
- e. the vehicle has been modified without authorisation from Ferrari in order to comply with the homologation requirements of a nation in which the vehicle has not been specifically homologated by Ferrari;
- f. in the event of repairs done using non-original FERRARI spare parts.

### 4. TERRITORIAL COVERAGE

4.1 In compliance with the aforementioned regulations and with the exception of the cases described in Clause 2, the Warranty is usable at any Authorised Ferrari Network centre worldwide.

### 5. CORRECT USAGE

The Client is required to strictly observe the provisions concerning use and maintenance indicated in the relative manual and, in particular, to have the vehicle checked and serviced periodically as required. Failure to do so will render the Warranty null and void [see Clause 3 Section a) above].

In particular, systems involved in exhaust emissions control must be checked in accordance with Ferrari specifications.

In addition, observing the requirements set forth by the Maintenance Schedule will ensure:

- optimised vehicle performance and fuel consumption;
- compliance with emissions and environmental standards throughout the vehicle's service life;
- that the vehicle is maintained in the conditions necessary to pass periodic roadworthiness/emissions tests required by applicable legislation.

The only appropriate and reasonable use of the vehicle is that specified by the Manufacturer (road use): Any other use is potentially hazardous for the Client and third parties.

The Manufacturer assumes that the Client will observe the prescriptions for the correct use of the vehicle given in the Owner's Manual, and recommends that the Client read this manual thoroughly.

### 6. OBLIGATIONS OF THE CLIENT

- a. Only use the vehicle to transport passengers and loads within permissible limits.
- b. Use the vehicle correctly as indicated and contact an authorised Ferrari Service Centre for further instruction in the event of a breakdown.
- c. Only use the fuels recommended in the Owner's Manual.
- d. Keep a copy of the repair orders and receipts relative to all maintenance work performed, including engine oil and filter changes and general services.
- e. The aforementioned documentation relative to these procedures is proof that the vehicle has been serviced and maintained correctly and must be handed over to any future owners of the vehicle.

### 7. REPLACEMENT OF PARTS

The parts eligible for replacement under the specific terms of the relative extended warranty type are covered by the warranty for its

06-05-2021

entire duration.

Repair work involving the use of spare parts must use original FERRARI spare parts; reconditioned original Ferrari spare parts may also be used.

All replaced parts become the property of Ferrari and are considered exchanged with the new parts.

#### 8. CLIENT SERVICE

The Client must use the following procedure in order to use the Warranty.

Contact an Authorised Ferrari Service Centre and provide the following information:

vehicle model  
chassis number  
date of purchase  
name of dealership which sold the vehicle  
vehicle mileage  
description of problem.

#### 9. WARRANTY CLAIM MANAGEMENT

Warranty claims may be handled directly by Ferrari S.A.T.

#### 10. CUSTOM SPECIFICATIONS

Notwithstanding the terms of Clause 3 Section c), the warranty may be deemed valid for vehicles with custom specifications authorised by Ferrari provided that they have been realised by the Authorised Network in compliance with the instructions given by the Ferrari Technical Service Department.

The term "custom specifications" does not include modifications made to vehicles for use on the race track and/or for racing events and/or for competitions in general (whether amateur or professional).

#### 11. EXTENDED WARRANTY SCOPE OF APPLICATION

The following policies only apply to services covered by the extended warranty as listed here; maintenance services are excluded (whether paid for or free of charge). These services must be performed correctly in order for the warranty to remain valid.

The relationship between the selling dealer and the purchaser remains governed by the national legislation applicable in the country in which the vehicle is sold (see Clause 1.8 above).

### FORMULAS SECTION

#### 4th or 4th and 5th year "EXTENDED WARRANTY" FORMULA

##### 1. DEFINITION

1.1 Ferrari provides its clients with a formula that allows them, for a fee, as indicated in the specific contract, to extend the period covered by the FERRARI Manufacturer's Warranty (free of charge) by a further 12 or 24 months. The Manufacturer's Warranty end date is used as the start date for the service.

1.2 The 4th year Extended Warranty, or 4th and 5th year extended warranty may be purchased through the Official Ferrari Network, when purchasing the vehicle; during the first year of the manufacturer's warranty period or when the manufacturer's warranty is about to end, up to 60 days before and no later than 30 days after the expiration date.

1.3 The content of the 4th year Extended Warranty or 4th and 5th year Extended Warranty is the same as that of the FERRARI Manufacturer's Warranty.

##### 2. COVERAGE

2.1 For the content of the 4th and 5th year Extended Warranty, refer to the Manufacturer's Warranty booklet.

06-05-2021

## "NEW POWER" FORMULA

### 1. DEFINITION

1.1 With this Formula, Ferrari guarantees the functionality of the vehicle (as specifically detailed in the Vehicle Identification Details Section) in accordance with the terms of paragraph 1. "General Clauses", for a period of 12 months from the start date for this Warranty, which is indicated in this document.

The start and end dates of the Warranty are indicated on the title page of this document.

1.2 The service may not be activated more than one month before the FERRARI Manufacturer's Warranty expires nor beyond the vehicle's 11th year (included), up to a maximum of eight renewals. The request may be made at any time during the specified period.

1.3 Before the service is activated (approximately one week before), the vehicle must pass a dedicated technical inspection. The vehicle must meet the parameters listed in the specific model check list.

1.4 Activation of the service is subject to approval by Ferrari. Ferrari reserves the right to verify the technical eligibility of the vehicle, together with the Dealer/Workshop in the Network.

### 2. COVERAGE

2.1 Coverage of the warranty is restricted to the following components ONLY:

#### Engine:

- engine crankcase and all internal components
- cylinder head(s) and valvetrain
- oil radiator(s)
- head gasket(s)
- oil sump and oil pump
- variable valve timing adjusters
- solenoid valves

(oil seals and oil leaks in general are excluded)

#### Ignition/Injection:

- Oxygen sensors
- secondary air system (secondary air pump and valves only)
- ionising ECU

#### F1/mechanical gearbox:

- gearbox casing and differential housing(s), including all internal components

(E-diff control and hydraulic part excluded)

- F1: Power Unit, electric pump, valves, actuator, ECU, selected and engaged gear sensor

(oil seals and oil leaks in general are excluded)

#### DCT gearbox:

- gearbox including all internal components
- ECU

(oil seals and oil leaks in general are excluded)

#### Power Transmission Unit:

- PTU: including all internal components
- ECU

(oil seals and oil leaks in general are excluded)

#### Suspension and steering:

- complete steering box
- power steering pump (excluding drive belts)

06-05-2021

ECU for controls on steering wheel  
suspension arm joints  
toe-in tie-rod  
(oil seals and oil leaks in general are excluded)

Cooling system:  
water pump  
fans  
(leaks in general are excluded)

Air conditioning/heating:  
AC system control devices  
AC compressor and AC system ECU

Electrical system:  
alternator  
starter motor  
ignition coil, engine ECU  
crankshaft sensor, camshaft sensor  
power window motors

Fuel and induction system:  
injectors  
throttle bodies  
air flow sensor  
intake manifold  
pressure regulator  
temperature sensors  
fuel pipes  
fuel pumps

Brake system:  
hydraulic brake pump  
brake pressure regulator and servo

Bodywork  
RHT roof function  
(wear, bodywork and paint defects, seals and water infiltration in general are excluded)

Labour relative to the removal/installation and replacement of the aforementioned components. Labour only maintenance is not covered.

#### "NEW POWER15" FORMULA

##### 1. DEFINITION

1.1 With this Formula, Ferrari guarantees the functionality of the vehicle (as specifically detailed in the Vehicle ID Data Section) in accordance with the terms of paragraph 1. "General Clauses", for a period of 12 months from the start date for this Warranty, which is indicated in this document.

The start and end dates of the Warranty are indicated on the title page of this document.

1.2 The service may be activated from the vehicle's 11th year (excluded), for a maximum of three renewals. The request may be made at any time during the specified period. The Warranty may not extend beyond the 15th year.

1.3 Before the service is activated (approximately one week before), the vehicle must pass a dedicated technical inspection.

The vehicle must meet the parameters listed in the specific model check list.

06-05-2021

1.4 Activation of the service is subject to approval by Ferrari. Ferrari reserves the right to verify the technical eligibility of the vehicle, together with the Dealer/Workshop in the Network.

2. COVERAGE

2.1 Coverage of the warranty is restricted to the following components ONLY:

Engine:

- engine crankcase and all internal components
- cyllnder head(s) and valvetrain
- oil radiator(s)
- oil sump and oil pump
- variable valve timing adjusters
- solenoid valves

(oil seals and oil leaks in general are excluded)

F1/mechanical gearbox:

- gearbox casing and differential housing(s), including all internal components

(E-diff control and hydraulic part excluded)

- F1: Power Unit, electric pump, valves, actuator, selected and engaged gear sensor

(oil seals and oil leaks in general are excluded)

DCT gearbox:

- gearbox including all internal components

- ECU

(oil seals and oil leaks in general are excluded)

Power Transmission Unit:

- PTU: including all internal components

- ECU

(oil seals and oil leaks in general are excluded)

Suspension and steering:

- complete steering box

- power steering pump (excluding drive belts)

- ECU for controls on steering wheel

(oil seals and oil leaks in general are excluded)

Labour relative to the removal/installation and replacement of the aforementioned components. Labour only maintenance is not covered.
