Formula (type of Extended Warranty)	Power15		
Duration 1 Year	Start	15-08-2022	End 15-08-2023

Date 15/8/22 Dealer Signature [Signature]

By signing this document, the undersigned declares that he/she has read, understood and accepted all the terms of the Extended Warranty programme, provided below.

Date 16/8/22 Client Signature [Signature]

In particular, I hereby declare that I accept the following clauses: Clause 1 – General clauses; Clause 2 – Exclusions; Clause 3 – Voiding; Clause 11 – Extended Warranty Scope of Application; "Formulas" section.

15-08-2022

Extended Warranty programme, provided that, at the time of the first use of the Extended Warranty by the new owner, the new owner provides the Ferrari Authorised Service Network with their identification details and appropriate documentation proving ownership of the vehicle, thereby expressing their intention to use the Extended Warranty in lieu of the previous owner. In this case, the Extended Warranty is transferred to the new owner of the vehicle, and the new owner will be able to use it according to all its original terms and conditions, including the expiry date, exclusions and voiding causes.

## 2. EXCLUSIONS

2.1 The Extended Warranty does not cover defects resulting from normal wear and tear of the vehicle, and specifically:

- a.maintenance work and costs for materials subject to normal wear and tear, including by way of example: brake discs, brake pads, battery, spark plugs, oil filter, air and fuel, all clutch components (disc and pressure plate), tyres, engine belts, wiper blades, activated carbon filter, air conditioning filter, HI-FI system, AC coolant;
- b.changes or deterioration of the paintwork, chrome work or upholstery due to normal wear or inappropriate use;
- c.faults not due to product or material defects and attributable to improper use, negligence, accidents, incorrect or inadequate maintenance, use of the vehicle in motor sports, on tracks/circuits, or usage not in compliance with the indications given by Ferrari.

## 3. VOIDING

The Extended Warranty is void if one or more of the following conditions occur:

- a.the vehicle is not serviced in accordance with the maintenance schedule set by Ferrari and listed in the Manufacturer's Warranty Booklet (see Clause 5 below). Any repair work performed outside of the Ferrari Authorised Service Network must be documented with a copy of the invoice and a list of the spare parts used and operations performed.
- b.the vehicle is improperly repaired and/or serviced outside the Ferrari Authorised Service Network;
- c.modifications have been made to the (i) mechanics and/or (ii) electronics (including the installation/use of software devices that are incompatible with the technology used in the vehicle and not approved by Ferrari) and/or (iii) bodywork or systems, cables or parts in general without specific authorisation from Ferrari;
- d.the vehicle has been inappropriately used, misused or tampered with (e.g. tampering with odometer);
- e.the vehicle has been modified without authorisation from Ferrari in order to comply with the homologation requirements of a nation in which it has not been specifically homologated by Ferrari;
- f.Ferrari original spare parts or parts of equivalent quality are not used for repairs;
- g.the vehicle is sold to an independent reseller or to operators using the vehicle for commercial purposes (e.g. rental companies, taxis, etc.).

It is understood that the voiding of the Extended Warranty also applies in the event that the circumstances referred to in letters a-g of this clause are found to have occurred prior to the start date of the Extended Warranty.

## 4. TERRITORIAL COVERAGE

4.1 In compliance with the aforementioned provisions and with the exception of the cases described in Clause 2, the Extended Warranty is usable at any Ferrari Authorised Service Network centre worldwide.

## 5. CORRECT USAGE

The client is required to strictly observe the provisions concerning use and maintenance indicated in the relative manual and, in particular, to have the vehicle checked and serviced periodically as required. Failure to do so will render the Extended Warranty null and void [see Clause 3 Section a) above].

In particular, systems involved in exhaust emissions control must be checked in accordance with Ferrari specifications.

In addition, observing the requirements set forth by the Maintenance Schedule will ensure:

- optimised vehicle performance and fuel consumption;
- compliance with emissions and environmental standards throughout the vehicle's service life;
- that the vehicle is maintained in the conditions necessary to pass periodic roadworthiness/emissions tests required by applicable legislation.

The only appropriate and reasonable use of the vehicle is that specified by the Manufacturer (road use): Any other use is potentially hazardous for the client and third parties.

The Manufacturer recommends clients carefully read the Owner's Manual for information on correct use of the vehicle.

## 6. OBLIGATIONS OF THE CLIENT

- a. Only use the vehicle to transport passengers and loads within permissible limits.
- b. Ensure proper use of the vehicle and contact the Ferrari Authorised Service Network to receive any instructions in the event of a breakdown.
- c. Only use the fuels recommended in the Owner's Manual.
- d. Keep a copy of the repair orders and receipts relative to all maintenance work performed, including engine oil and filter changes and

3

15-08-2022

general services.

e. The records referred to in letter d), above, are proof that maintenance work has been promptly carried out and must be passed on to the next vehicle owners.

#### 7. REPLACEMENT OF PARTS

All original Ferrari spare parts are covered by a 12-month warranty from the date of installation.

Repairs using spare parts are carried out with original Ferrari spare parts (i.e. new Ferrari spare parts and/or parts refurbished by Ferrari or authorised partners).

All replaced parts become the property of Ferrari and are considered exchanged with the new parts.

#### 8. CLIENT SERVICE

The client must proceed as follows for an initial assessment of the recognition of a warranty claim:

- contact the Ferrari Authorized Service Network, providing the following information:

vehicle model, chassis number, date of purchase, name of Dealer which sold the vehicle or the seller, vehicle mileage, description of problem.

- make an appointment with an Authorised Repairer of the Ferrari Authorised Service Network in order to inspect the vehicle and analyse the problem.

#### 9. WARRANTY CLAIM MANAGEMENT

Extended Warranty claims may also be handled directly by the Ferrari S.p.A. Technical Service Department.

#### 10. CUSTOM SPECIFICATIONS

Notwithstanding the terms of Clause 3 Section c), the Extended Warranty may be deemed valid for vehicles with custom specifications authorised by Ferrari provided that they have been realised by the Authorised Service Network in compliance with the instructions given by the Ferrari S.p.A. Technical Service Department.

The term "custom specifications" does NOT include modifications made to vehicles for use on the race track and/or for racing events and/or for competitions in general (whether amateur or professional).

#### 11. EXTENDED WARRANTY SCOPE OF APPLICATION

The clauses in this document only cover work carried out under the Extended Warranty expressly provided for herein; maintenance services (both payable and free of charge) are therefore not included. These services must be performed correctly in order for the Extended Warranty to remain valid.

The relationship between the selling dealer and the purchaser remains governed by the national legislation applicable in the country in which the vehicle is sold (see Clause 1.8 above).

#### 12. LIABILITY

Ferrari accepts no liability for work carried out on the vehicle by the Ferrari Authorised Service Network (whether or not covered by the Extended Warranty).

#### 13. ADMINISTRATIVE CHECKS

The checks carried out by the Ferrari Authorised Service Network refer only to those envisaged by the Extended Warranty and do not relate to/guarantee the passing of administrative servicing checks required by law, which must be specifically requested by the client.

### FORMULAS SECTION

"Warranty Extension" formula

Valid for a maximum of 4 years following the expiry of the Ferrari Manufacturer's Warranty

#### 1. DEFINITION

1.1 Ferrari offers its clients a formula that allows them to pay to extend the coverage period of the (free-of-charge) Ferrari Manufacturer's Warranty by a further 12 or 24 months from the expiry date of said Manufacturer's Warranty. This formula may subsequently be renewed annually or every two years, up to the 2nd or 4th year from the expiry of the Manufacturer's Warranty, depending on the relevant model vehicle. For more information, please refer to the summary tables reported at page 7 of this document.

1.2 The Warranty Extension can be purchased from the Ferrari Authorised Service Network at the time of purchase of the vehicle, during the first year of the Manufacturer's Warranty, before its expiry date, and, in any case, no later than 30 days after the expiry date of said Manufacturer's Warranty. The Warranty Extension may subsequently be renewed before its expiry date and, in any case, no later than 30 days after its relevant expiry date.

1.3 The coverage of the Warranty Extension is the same as that of the Ferrari Manufacturer's Warranty.

1.4 Before activating the Warranty Extension, the vehicle must undergo a separate technical inspection by the Ferrari Authorised Service

4

ver.02 2022

Extended Warranty

15-08-2022

Network. The vehicle must meet the parameters listed in the specific model check list. Activation of the Warranty Extension is subject to approval by Ferrari. Ferrari reserves the right to verify the technical eligibility of the vehicle, together with the Dealer/Ferrari Authorised Service Network.

## 2. COVERAGE

2.1 The Extended Warranty covers functional defects of the vehicle with the exception of the following: a) what is indicated in the previous paragraph 2 of the "Extended Warranty General Conditions" and in paragraph 3, "Exclusions", which follows.

## 3. EXCLUSIONS

3.1 The Warranty does not cover faults resulting from normal wear and tear of the vehicle, and specifically:

Brake discs; Brake pads; Battery; Spark plugs; Oil, fuel and air filters; Complete clutch (disc and pressure plate); Tyres; Ancillary belts; Windscreen wiper blades; Active carbon filter; Air conditioner filter; AC refrigerant; Labour relative to the aforementioned parts

3.2 The Warranty also does not cover:

Non-original accessories installed by the Dealer; Wheel alignment/suspension settings; Corrosion to box section elements; Normal noise, vibration and wear of parts; Deterioration of leather and interior upholstery caused by normal use or through treatment not in accordance with the Owner's Manual.; Minimal noise, infiltration via seals between roof and bodyshell or via door windows. For these cases, please consult the guidelines given in the Owner's Manual; Labour relative to the aforementioned components and/or defects.

## 3.3 ROADSIDE ASSISTANCE SERVICE\*\*

The activation of the Warranty Extension formula includes the use of roadside assistance service, provided by Europ Assistance or other operator for the entire validity period of the Warranty Extension, including any subsequent renewals. For further information on the roadside assistance service and the associated terms and conditions, please contact your Ferrari Authorised Dealer/ Workshop or, alternatively, look at the following link: [www.ferrari.com/en-EN/contatti](http://www.ferrari.com/en-EN/contatti).

"Power15" formula

## 1. DEFINITION

1.1 With this formula, Ferrari guarantees – throughout the period of 12 months from the date its activation – the performance of the vehicle, as indicated in paragraph 1 of the "Extended Warranty General Conditions" above.

1.2 Power15 formula can neither be activated earlier than one month before the expiry of the Ferrari Manufacturer's Warranty, nor beyond the vehicle's 14th year of age (included). The maximum allowed number of annual renewals is twelve. Activation requests may be made at any time during this period.

1.3 Before activating the Power15 formula (approximately one week before), the vehicle must undergo a technical inspection by the Ferrari Authorised Service Network.

The vehicle must meet the parameters listed in the specific model check list.

1.4 Activation of the Power15 formula is subject to approval by Ferrari. Ferrari reserves the right to verify the technical eligibility of the vehicle, together with the Ferrari Authorised Dealer/ Workshop.

## 2. COVERAGE

The coverage of the Power15 formula is restricted to the following components ONLY:

### ENGINE:

engine; engine body; lower crankcase shell; timing cover; cylinder head gaskets; engine shaft; piston; connecting rod; cylinders heads; cylinders head covers; induction phase variator; intake camshafts; lh intake camshaft; induction valve control tappet; exhaust valve control tappet; exhaust phase variators; oil pump and timing control assembly; cylinders head phase sensors; (oil seals and oil leaks in general are excluded)

### COOLING & INJECTION SYSTEM:

fuel pumps; head side injectors; head side injectors pipes; fuel delivery pipe from cpl. pump; front cylinders bank injector; high pressure fuel pump; injectors pipes; suction manifold central compensation; oil tank; complete water pump; complete oil/water pump; complete engine oil pump; head induction phase variator control electrovalves; head exhaust phase variator control electrovalves; water cooling radiator; diagnostic pump; air flow meters; antievaporation valve; oil radiator; complete electro-fan; oil / water heat exchanger; complete electrofans set; throttle body; complete oil sump; secondary air system (secondary air pump and valves only); (oil seals and oil leaks in general are excluded)

### EXHAUST AND EMISSIONS CONTROL SYSTEM:

rh./lh. secondary air valve; secondary air pump; complete rh./lh. depression pipe; lh. rear secondary air valve; secondary air valve rh.

5

ver.02 2022

Extended Warranty

15-08-2022

pipe; secondary air valve lh. pipe: secondary air electrovalve; front depression accumulation tank; rear depression accumulation tank; lh. by-pass control electrovalve; rear on/off solenoid; on/off solenoid; lh. thermocouple; lh. front lambda feeler; lh. rear lambda feeler; rh. by-pass control electrovalve; exhaust electrovalve; front on/off solenoid; rh. thermocouple; rh. front lambda feeler; rh. rear lambda feeler; lh./rh.turbocharger. (Oil seals and oil leaks in general are excluded)

**ELECTRICAL COMPONENTS:**

programmed ignition control units; pumps feed control unit; f1 gearbox electronic control unit; e-diff control unit; dct gearbox control unit; 4wd control unit; abs/asr hydraulic assembly; ion control unit; a.c. control unit; rear calipers control unit; capote control unit; glass lift control station; glass lift complete mechanism; pilot side glass lift motor; rear glass lift; passenger side glass lift motor; head side ignition coil; alternator; starter motor; body computer unit

**GEARBOX & TRANSMISSION:**

gearbox including all internal components; ECU; complete gearbox; gearbox-kit ; gearbox-kit e-diff; temperature sensor ccp; gear revolution sensor; transmission gearbox - ol17; differential box; complete differential; e-diff control valve; cpl. ptu cable kit; cpl. power unit kit with actuator; f1 gearbox oil tank; complete f1 gearbox actuator; f1 gearbox electronic control unit; f1 actuator potenziometers kit; complete power take off unit; complete power unit; (oil seals and oil leaks in general are excluded)

**BRAKING SYSTEM:**

servobrake; brakes pedal; abs/asr hydraulic assembly; (oil seals and oil leaks in general are excluded);

**STEERING AND SUSPENSIONS SYSTEM:**

servocontrol driving box; hydrodrive pump; hydraulic steering control unit; rh/lh front upper suspension arm; rh/lh front lower suspension arm; rh/lh front suspension ball-joint tie-rod; rh/lh rear suspension upper arm; rh/lh rear suspension lower arm; rh/lh ball joint; steering wheel controls buttons; joint for rh/lh front upper lever; rh/lh. front shock absorber inner ball joint; rh/lh rear convergency adjustment tie rod; joint for lh. rear lower lever; joint for rh. front upper lever; joint for rh/lh front lower lever; (oil seals and oil leaks in general are excluded)

**AIR CONDITIONING:**

complete evaporator assembly; a.c. compressor; a.c. electrofan; a.c. control unit; a.c. control panel;

**BODY:**

RHT- Retractable Hard Top ; RHT roof function; (wear, bodywork and paint defects, seals and water infiltration in general are excluded)

Labour related to the removal/installation and replacement of the aforementioned components. Works only entailing manual labour only are not covered.

**3. ROADSIDE ASSISTANCE SERVICE\*\***

The activation of the Power15 formula includes the use of roadside assistance service, provided by Europ Assistance or other operator for the entire validity period of the Power15 formula, including any subsequent renewals. For further information on the roadside assistance service and the associated terms and conditions, please contact your Ferrari Authorised Dealer/ Workshop or, alternatively, look at the following link: [www.ferrari.com/en-EN/contatti](http://www.ferrari.com/en-EN/contatti).

\*\*service availability is dependent on the country in which you purchased the Extended Warranty or Power15 coverage.

A summary table with the different types of coverage based on the age and model type of vehicles is provided below:

Valid for the following models: 488; 488 Spider; F8 Tributo; F8 Spider; Ferrari Portofino; Ferrari Portofino M; Ferrari Roma; \*SF90 Stradale; \*SF90 Spider; 812 Superfast; 812 GTS;

Manufacturer's Warranty 1 to 3 age of vehicle

Formulas
